Pro Se

Dear, Judge Dearie.

Ignorance of the law does not excuse misconduct in anyone. I have been arrested and held at the metropolitan Detention Center in Brooklyn since December 18, 2018. Since that time there have only been a handful of Court hearings with extensions upon extensions for Court dates because the prosecutor said she's confused because it's a complex case, why must I sit here for three years innocent to be treated like someone who has been convicted of a crime. I've spoken to another lawyer other than the one who's representing me and even he said something is not right with the prosecutor and with the lawyers on this case. I endured the blackout at the metropolitan Detention Center in Brooklyn where I thought I may actually die from the freezing cold, lack of meals and medical attention. I also had to face the tragedy of the Coronavirus pandemic which resulted in me having a life threatening sickness, I've could of lost my life. What should I do Judge Dearie should I commit suicide, should I reach out to every Human rights organization something needs to be done, it seems the prosecutor and or government doesn't care whether I live or die and that's a bit nerve wrecking and scary that people who have children of their own can treat other people children this way, what's more important a conviction or dying in jail innocent. I did not give my lawyer or the court consent to waive my speedy trial and this case has already exceeded the time limit. this case should be dismissed not unless the court ask for my consent that they will adjourn the case for a year and nobody asked for my consent. Judge Dearie please help me! Maxim of Law states, where the law is uncertain, there is no law! God bless!
